Description

The “Talents - Charity” auction is the first charity edition of the author's “Talents” auction series at the Artbidy Auction House. The aim of the fundraising is the treatment and rehabilitation of Maks Osiński - a little boy who is struggling with VACTERL - a set of congenital defects which in the boy manifested itself as a heart defect (aortic stenosis), oesophageal defect (tracheo-lung fistula) and radial haemimelia (lack of radial bone in the right hand and bony defects in the fingers). Thanks to the operations and exhaustive treatment, Maks manages to regain the dexterity of his healthy peers. The boy has a profound hearing impairment, which is why he constantly attends surlogopaedic classes. Maks's mother, Liliia, is an artist of Ukrainian origin, a graduate of the I. Trush Lviv State Institute of Decorative Arts, and works in graphic design and painting. With the help of her friends, artists, she created a collection of six paintings, which she decided to put up for auction to help her son. We strongly encourage you to take a look at the offer and place your orders.
